

NSWAI (National Solid Waste Association of India)

A web platform supporting inclusive and sustainable solutions in the Indian waste management sector, highlighting eco-system creation and circular economy projects.

Category	Platform
Stack	Laravel 12 · MySQL · Bootstrap

OVERVIEW

Developed the full-stack web application and admin panel. Built modules for content publishing, sector news and document uploads, and handled both frontend responsiveness and backend data structure.

Features: waste management knowledge hub, sector updates and reports, document repository and user CMS.

Key integration: Laravel CMS with a custom file upload module.
